Evaluating the Cases

As a team, decide which member of the group will watch or read each case study. When you finish with your case, answer questions 1 to 6. Then, discuss and answer questions 7 to 11 with your group members. If you wish, watch or read the case studies again to help with your answers.

Case Study: ________________________

1. What disease does the individual have? Is it chronic or acute?

2. How did the disease change the individual’s life?

3. What is the recommended treatment?

4. What did the individual do to improve his or her recovery?

5. What did the individual do that impaired his or her recovery?

6. Are there other things the individual could do to help with the disease?

Comparing the Cases

7. Which individuals were successful in their treatment? Which individuals were not?

8. Who was cured of their disease? What is the difference between treatment and cure?

9. How are the treatments for the different diseases similar?

10. How are the treatments different?

11. Can you identify similarities and differences in the actions or strategies that individuals took to help them deal with their disease?
